COMMIT-TED's Cups For Camp Program

Can you please help me get to diabetes camp this summer?

Diabetes camp is a special place, where I can learn how to take care of myself, share life experiences with other children living with diabetes, and most important, have fun in a safe setting, just like other kids do.

To get there, I am selling coffee cups....
for only \$10.

You might wonder
if the cup is worth that much.

No. Its worth much more!

Because going to diabetes camp can impact a child forever!

Thank you for your consideration!

All associated costs for this program are paid by COMMIT-TED Inc., a federally recognized 501(c)(3) organization, established exclusively for the benefit of helping children with Type I diabetes.

More information is available at:
